SYSTEM REQUIREMENTS

Type: Travel Router

WiFi Travel Router

Travel Router, Travel Adapter and USB charger in one

DESCRIPTION

Create a WiFi hotspot and share your Internet connection at your hotel room. With the EM4630 WiFi Travel Router you can create a WiFi hotspot by yourself and share this connection with other wireless devices. At the same time it performs the role of a WiFi repeater and has a 2.1A USB-port for charging your smartphone or tablet. The WiFi Travel Router is powered via the power socket. The EM4630 also functions as a travel adapter. You will always have the right plug along with you.

Connect easily

Plug the Router in the power socket and connect the UTP-cable, which is available at the hotel room, to the WAN-port of the WiFi Travel Router. You can easily detect the wireless network with your tablet or smartphone. These simple steps will ensure a simple creation of a WiFi hotspot.

Share your connection

Multiple wireless devices can use your WiFi hotspot. You can share your connection with tablets, phones and other communication devices with WiFi.

Repeater function

The WiFi Travel Router ensures that existing wireless network coverage will be increased. The EM4630 simply gets connected to the network and will be adjusted to the repeater function. The WiFi Travel Router increases the coverage of the occupant wireless network. In this way you also have a wireless Internet connection when you are just out of reach of your standard wireless network.

Charging and using at the same time

Via the USB-port on the WiFi Travel Router you can charge and use your tablet or smartphone during the use of the router function.

Ideal travel companion: Router and travel adapter in ONE

Because of its compact shape the EM4630 hardly takes any space. Although the EM4630 WiFi Travel Router is very compact, it offers many useful features. It isn't necessary anymore to bring different travel adapters along when you are going abroad. The EM4630 ensures that you always have the right plug with you. Along with the USB connection and the router function, the EM4630 WiFi Travel Router is the ideal travel companion.
